“ Remembering Buddy keeping pets for the kids to have fun with, Perky was the favorite, & him building the cart for the kids to drive. He enjoyed being involved with the kids having fun & was willing to do what they needed. He was a good man.

“ I am sorry I was not able to attend the memorial. I have great memories of Buddy. I worked with him over 20 years at Victor Equipment and I can honestly say I learned more from him than anybody else out there. He is responsible for any success i have had in my career out there. He was a very smart and brilliant man and I was always amazed at how sharp he was. He came up with so many ideas and ways of doing things and I always wanted to learn from him and he was gracious enough to take me under his wing and teach me. He and I worked great together and it got so I knew what he wanted me to do before he even finished a sentence. I want all of you to know what great memories I have of him and I am sure it will leave a void in your family that can't be replaced. God's speed Buddy and R.I.P.
