“David was my Father. He was such an amazing man and cared about so many people in his life. He did whatever he could for his family. Always took care of his mother Dora and sister Patty whenever they needed him. He loved his nieces Amina and Aisha as if they were his daughters. He loved Nascar and loved debating politics with his brother in law Malik. My dad made life fun. I miss him dearly and so do my kids. My boys did not get to know him very long but they have everlasting memories of him. Alex still talks about seeing him and going to ix flags with him. They know who their Grandpa is and pictures and stories will fill in all the blanks they will have about him. I think and miss my dad every single day. I know he would not have wanted to live a single day without his wife Beverly and that is why he had to go home to God, but someday I really wish he was still here. He and Beverly are both missed very much by so many people.
