“ *Frank Castillo,*

*To a great humble Leader, one who didn't hesitate to assist others - not just about work ethics and decision making but also in life choices... guiding those around him as they faced their challenges and pursued their goals. *Positive-proven evidence of how a wise Mentor can become a true Friend.*

A recent high recognition given to me by Frank, which centered on who I have become instead of who I was trying to be, polished my perspective on how to carry on what he has taught me over the years and on why I am on Earth.

His contribution towards consumer protection and assistance in providing the most alluring produce and floral to DFW citizens has enhanced the lives of millions. His legacy is eternal.
