“*Reciban nuestras condolencias.*

La promesa que Dios le hace a la humanidad es la que se encuentra en Hechos 24:15 ahí dice que "va ha haber una resurrección".

Eso quiere decir que Jehova Dios tiene el poder y el deseo de devolverles la vida a nuestros seres queridos que han muerto. Además eliminará para siempre las enfermedades y hasta la muerte.

Isaías 33:24;Revelación o Apocalipsis 21:4.

“Oswaldo we had are ups and downs but we were together for 16 years. Married for 14. We loved each other very much. We had 3 children together. Yes u were a good father. You loved all your children. You taught me so much how to speak Spanish, drive, buy and sell cars, build a house, fences, and so much more. Don't forget some bad habits to. When we bought the land we struggled to move the mobile home there. You and I were a team we practically built the mobile home our self. Days and hours working together. Putting up siding, sheet rock, painting, cabinets, building the back porch. Then we built the fence and the frame work on the shop. I remember u telling me "make sure you don't look at the flame when I'm welding because it will hurt your eyes." Later that night my eyes hurt so bad I couldn't see. You cut up a potato and you put them on my eyes. It felt so much better, then you said" Didn't I tell u not to look at the flame" I never did that again. Lesson learned. You always looked out for me. We always talked about growing old with each other and you made me promise you that I was going to change your diapers and limpiar tu Culiacán cuando estas viejo. I would do anything to actually complete that promise if I could. I won't forget the last conversation we had together. It was about 1 month prior to your death u called me because u wanted my option and my advise about something that was going on in your life. You always did trust me even though we got divorced a year and half ago. But the end of our conversation is what will stay with me forever. You asked me what will I be doing when I'm 60. I didn't know what u were talking about. You asked me again. I still had no clue what you were trying to say. Then you came out and said it. You said " when your 60 and were both not with anyone I want us to give it another try." You said " remember you made me a promise that we were going to grow old together." I wish you could of made it past those days, but now your gone and I will always have love in my heart for you! Makala the one you really loved until your dying day...

“ He was the most amazing man And father I've ever come to know. He was mine and my daughters world. Such a hard working loving friend. I still can't believe his life was senselessly taken for no reason. No one will ever know the pain in my heart, to not ever be able to hold him again to not ever see him play with our daughter. Most of all to not ever see him hold our son. I pray justice is served and will not stop fighting until it is. I love you my love forever and always your loving wife Priscilla and kids Isabella Coronado, and Oswaldo coronado. Rest in peace

“ I only met Victor once but was impressed. I know he was a good man, father, and devoted to Priscella Marie. It was just a senseless murder. My sympathies are with you all.
